## INTRODUCTION

This report presents final population counts of the 1966 Census distributed by federal electoral constituencies for the provinces and territories.

The electoral district totals in Table 6 are based on the Representation Act of 1952 on which the present membership in the House of Commons is constituted and under which the 1966 Census was planned and conducted. Similar totals based on the new electoral districts established by the 1966 re-distribution of representation (according to the Representation Order proclaimed on June 16, 1966) are presented in Table 7. Details of the 1966 population distribution within each new electoral constituency by counties and census divisions, municipalities, cities, towns, villages, etc., are provided in Table 8. All tables include comparative figures from the 1961 Census.

While the present report shows the populations of municipal subdivisions within each federal electoral district (based on the 1966 re-distribution) a series of four regional reports (Nos. 1-3 to 1-6) shows these subdivisions under a county and census division arrangement. More detailed population distributions by geographical areas for several provinces will appear in Report 1-14 (Appendix A to Volume I). In this report population totals will be shown for: (a) the small surveyed land townships (i.e., by township, range and meridian) in each census division of Manitoba, Saskatchewan and Alberta; and (b) the unorganized townships, etc., in the northern districts of Quebec and Ontario.

The following statement provides provincial population totals according to the 1966 and 1961 Censuses and shows the number of federal electoral districts in each province under both the 1966 and 1952 re-distributions.

Le présent rapport donne les chiffres définitifs de la population au recensement de 1966 par circonscription électorale fédérale pour les provinces et territoires.

Au tableau 6, les chiffres des circonscriptions électorales sont fondés sur la loi de 1952 sur la députation qui régit la composition actuelle de la Chambre des communes et sous laquelle le recensement de 1966 a été organisé et effectué. Des chiffres similaires fondés sur les nouvelles circonscriptions électorales établies à la suite du remaniement électoral (d'après l'Ordonnance de Représentation proclamée le 16 juin 1966) sont donnés au tableau 7. Le détail relatif à la répartition de la population de 1966 dans chaque nouvelle circonscription électorale par comté ou division de recensement, municipalité, cité, ville, village, etc., est donné au tableau 8. Les chiffres comparatifs du recensement de 1961 paraissent dans tous les tableaux.

Tandis que le présent rapport donne les populations des subdivisions municipales dans chaque circonscription électorale fédérale (fondée sur le remaniement de 1966), une série de quatre rapports régionaux (n°s 1-3 à 1-6) donne ces subdivisions par ordre de comté et de division de recensement. Des répartitions plus détaillées de la population par région géographique pour plusieurs provinces paraîtront dans le rapport 1-14 (Appendice A au volume I). Dans ce rapport, les chiffres de la population seront donnés pour: a) les petits townships arpentés (i.e., par township, rang et méridien) de chaque division de recensement au Manitoba, en Saskatchewan et en Alberta; et b) les cantons ou townships non organisés, etc., des districts septentrionaux du Québec et de l'Ontario.

Le tableau suivant donne les chiffres de la population par province lors des recensements de 1966 et de 1961 ainsi que le nombre de circonscriptions électorales fédérales dans chaque province d'après les remaniements de 1966 et de 1952.
